

INFORMATION ABOUT SLOPE MARKINGS

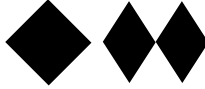

Welcome to Engadin St. Moritz Mountains.

Your safety is our top priority. Please always follow the signs in the ski area. Especially, we would like to draw your attention to some differences in slope markings between North America and Switzerland.

SWITZERLAND

-  Gradient up to 25 percent
-  Gradient 25 to 40 percent
-  Gradient more than 40 percent
-  Ski route marked and secured, not groomed
-  Winter hiking & snowshoe trails

NORTH AMERICA

-  Gradient 6 to 25 percent
-  Gradient 25 to 40 percent
-  Gradient more than 40 percent

Rescue operations are subject to a charge and are not included in the ski pass.

SECURED AND CONTROLLED SLOPES

All official and secured slopes are marked with a pole on each side (see picture 1 below). The SOS Phone Number is also noted on the pole.

If you leave a marked slope, you are in the free ski area. These areas are neither marked nor prepared, not controlled, not secured or are animal protection areas.

Since only open and marked runs are controlled by ski patrol and emergency service (see picture 2 below), skiers and snowboarders who leave marked slopes must be aware that they do so at their own risk.

Be warned that you are entering a dangerous area where there may be rocks or treacherous drops etc.

linke Seite côté gauche lato sinistro left side	ACHTUNG ATTENTION ATTENZIONE	rechte Seite côté droite lato destro right side	ACHTUNG ATTENTION ATTENZIONE	ACHTUNG ATTENTION ATTENZIONE
	Piste beidseits markiert		Der Pisten- und Rettungsdienst überwacht und kontrolliert nur die markierten und geöffneten Pisten	Ausserhalb der Bahnbetriebszeiten sind die Abfahrten geschlossen und vor keinen Gefahren wie LAWINENSPRENGUNGEN oder PISTENMASCHINEN mit SEILWINDEN gesichert! ! LEBENSGEFAHR !
	Piste baliséé de chaque côté		Le service des pistes et de sauvetage ne surveille et contrôle que les pistes balisées et ouvertes	Les descentes sont fermées en dehors de heures d'ouverture et ne sont pas protégées de dangers tels que le DÉCLANCHEMENT D' AVALANCHE ou LES ENGINES DE DAMAGE MUNIS d' un TREUIL! ! Danger de mort !
	Pista demarcata da entrambi di lati		I servizi delle piste e di soccorso controllano solo le piste segnante ed aperte	Fuori dagli orari di esercizio degli impianti le piste sono chiuse e non sono assicurate dai PERICOLI COME SGANCIAMENTO DI VALANGHE o PATTIPISTA con ARGANO! ! Pericolo di morte !
Piste marked on both sides	Only open and marked runs are controlled by the ski patrol and emergency service	Skiruns are closed after operating hours and no safety measures against possible risks like AVALANCHE BALASTING or PISTE CATERPILLARS equipped with a WINCH are taken during this period! ! You are risking your life !		

SOS PHONE NUMBERS
